

MICHAEL CURRAN

DATA ANALYST

Saint Petersburg, FL | Remote | mikecurran09@gmail.com | [linkedin.com/in/mikecurran09](https://www.linkedin.com/in/mikecurran09)

Data Analyst with 2+ years direct and 5+ years relevant experience transforming complex data into actionable business intelligence. Proven record of driving outcomes through data visualization and automating workflows for efficiency gains.

TOOLS: SQL | Excel | Power BI | Tableau | Python | Smartsheet | VBA | Power Query

SKILLS: Data Visualization & Reporting | KPI Analytics | Database Management | Business Intelligence | Automation
Exploratory Data Analysis | Statistical Analysis | Data Cleaning & Quality Assurance | Stakeholder Training

KEY ACHIEVEMENTS

Tax Rebates: Conducted comprehensive descriptive analytics and developed an interactive Power BI dashboard, enabling the Fleet Management Team to assess data cleanliness and extract meaningful insights from over 1,500 distinct EV types for optimal tax rebate opportunities, projected to enhance rebate claims by 30%.

Department Reporting: Designed and automated a VBA & Power Query reporting tool that transformed raw data into actionable business intelligence, ensuring accuracy and reliability of data while reducing monthly report generation time by 40% across five departments, freeing up an estimated 120 hours annually.

Project Tracking: Automated data collection processes using Smartsheet that decreased analysis time by 40%, allowing for more strategic decision-making in procurement

PROFESSIONAL EXPERIENCE

Data Analyst, TD SYNnex | Clearwater, FL

March 2024 - Present

- Conducted exploratory data analysis using SQL queries and statistical methods in Excel to clean, transform, and validate procurement datasets, implementing quality control processes that improved data reliability by 25% and enabled more accurate spend trend identification.
- Developed predictive models using Python and Excel to forecast departmental expense patterns, resulting in 18% more accurate budget planning and \$320K reduction in unnecessary spending over two quarters.
- Created and maintained 5+ interactive Power BI dashboards that effectively communicated procurement metrics to business stakeholders, supporting data-driven decision-making and answering critical business questions for executive teams.
- Collaborated across departments to identify, prioritize, and formulate relevant data analysis efforts, continuously building domain expertise in global procurement processes and contributing to organizational efficiency enhancements.
- Conducted over 30 rapid-turnaround ad hoc analyses for executive stakeholders, transforming ambiguous business questions into clear analytical frameworks that directly informed strategic decision-making and resource allocation.

Senior Marketing Campaign Manager, TD SYNnex | Clearwater, FL

May 2019 - March 2024

- Analyzed campaign metrics to optimize a \$12M annual budget across Microsoft Cloud, AWS, and Google campaigns.
- Implemented data-driven strategies that increased revenue by \$3M while reducing ad spend by \$750K through ROI analysis.

Marketing Project Specialist, TD SYNnex | Clearwater, FL

June 2017 - May 2019

- Created regular performance reports for stakeholders that highlighted KPIs and actionable recommendations.
- Assisted with data cleaning and preparation for client projects, ensuring accuracy and completeness.

MILITARY EXPERIENCE

Naval Officer, United States Navy

May 2009 - May 2017

- Demonstrated strong leadership by directing teams to achieve mission objectives within strict timelines while mentoring junior personnel to enhance team cohesion and ensure seamless task execution in a dynamic maritime environment.
